

TECHNICAL SUMMARY SHEET

RACK 20/400 19" RACK MOUNTED/STEND

SERVER SIMULATOR

Type Ref	RACK 20/400
Max Voltage	400 volts, 3 phase 50 hz
Full Load Rating	Nominal: 20000W - 29A - 400V 3 phase
Controls	1 separate 10000/20000W loads at 400V Each load adjustable in 2 steps of 10000W
Adjustment	2x 10000Wsteps, selected via panel
Connection	One sockets 32A
Cooling	1 low noise, horizontal force air cooling fan, powered from the test source. Cool air intake at front, hot air exhaust at rear.
Airflow	Total airflow 3000 m3/h
Element Type	The resistor mounted on the mica composite card
Dimensions & Weight	11U (490mm high x 510mm deep plus handles) 19" rack assembly. Weight 17 kgs
Construction	Steel, with powder coated green gloss finish front panel. Enclosed tray assembly with rear grill
Operating Temperature	0-45 °C/0-113 °F
Storage Temperature	0-80 °C/0-176 °F
Movement	Front handles for slide in assembly to 19" racks
Optional Extras	Cables: 3 phase

Environmental Air Temperatures
